INNOVATIVE ARCHITECTURAL SOLUTIONS

ABOUT INNOVATIVE WINDOWS

Diversity in style, luxury embedded with simplicity, and contemporary designs - These are the foundations of Innovative Windows, a part of Innovators Facade Systems Ltd.

Innovative Windows elevates luxury living by leveraging the understated simplicity factor by integrating tested and proven technology to bring the best products to the table. Tailored and customized solutions for external & internal windows, doors, and much more make our pristine catalog of products unique and suitable for any and all purposes.

Innovative Windows architectural integrity coupled with contemporary designs makes our products relevant and current. Our tempting designs and unparalleled engineering helps us in staying with the times, and our esteemed partners & in-house team to craft the most impactful designs for every scene....Literally!

01

MINIMAL FRAME WINDOWS

Portraying space in all its glory, Innovative Windows minimal design windows blend the old and new ways to characterize minimalist designs and boost their appeal. Impeccable attention to detail and design flexibility allows our minimal frame windows to do the following:

LET THERE BE LIGHT - Minimal design brings maximum light. Enjoy the most view out of your window with unique and appealing designs.

EFFICIENT AND LONG-LASTING - Unparalleled performance in Thermal and Sound insulation allows for the best in safety and longevity designs.

02 ALUWOOD WINDOWS & DOORS

A hybrid masterclass in combining the strength of Aluminium and the warmth of wood, Innovative Windows, Alu-wood windows and doors are a perfect blend of class and candor with lifetime quality. Alu-wood brings in a function furnishing that utilizes new building techniques to offer energy-saving and quality living.

IMPROVED FUNCTIONAL PERFORMANCE - Leading European certifications that applaud the enhanced functional performance coupled with enticing and unique looks.

LOW MAINTENANCE - The incomparable mix of wood and Aluminium means no maintenance needed for a long period of time.

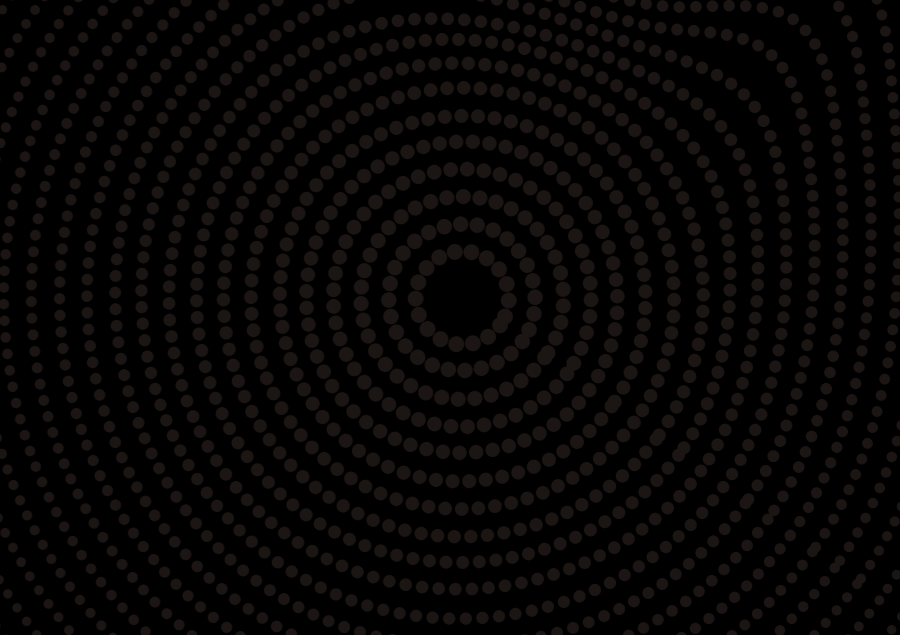

03 WOODEN WINDOWS

Elegance and Warmth - no one can deny that wooden windows bring forth these visceral elements out. Embrace the true beauty of natural materials with our elaborate range of wooden windows which provide the best insulation and elegance for your homes.

You will find the passion for wood along with precious & sought after metals like Bronze in our range of Wooden windows. The dynamic combination of handmade tradition and high-end research for technical and aesthetic innovation adds a unique flair to our products.

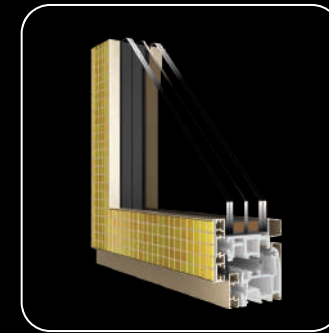

Natural materials have a unique beauty which attracts manufacturers to mimic the look of wood in window frames. Rather than settling for a cheap imitation, go for the real deal if you can afford it.

Aesthetically, traditional and old homes fit the bill for real wooden windows perfectly. Genuine wood's look is unparalleled by any other.

04 DESIGNER WINDOWS & DOORS

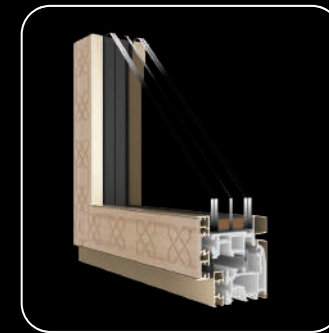

VENICE MOSAIC DESIGN

These windows become artistic works, unique and exclusive, as the highest expression of Venices' maestri of glass and gold.

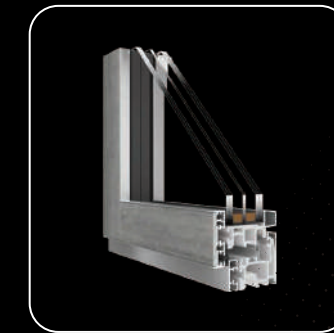

VENICE FABRIC DESIGN

These precious - and increasingly rare - skills, in a fascinating and magical setting where the hum of the looms and the expert hands of the Venetian weavers keep alive an art of the past which has a clear place in the world of today.

VENICE CARVING WOOD DESIGN

In this line, Innovative window leafs and engravings become decorative features in their own right, as these design products, with their uniqueness and originality, today represent that world-famed allVenetian talent and craftsmanship.

VENICE STONE DESIGN

The Innovative Windows Design window line conveys a surprising harmony, in which sturdiness, light weight and elegance all go hand-in-hand. The finishings in marble or porcelain tile provide for unique and unrepeatable solutions every time.

TOTAL GLASS

The flexibility of the system gives the possibility of using both the traditional material of the internal finish like wood and aluminium and the new TOTAL GLASS finish making the window a true work of art. Total Glass, presented with standard concealed hinges, allows us to eliminate the superfluous. The glass becomes the only element in sight, freeing it from its frame and filling the room with light, transparency and elegance.

05 ALUMINIUM WINDOWS & DOORS

Superior quality and superior performance - Innovative Windows Aluminum windows come loaded with intrinsic designs that cover all the bases - Three gasket levels for inward & outward opening windows and doors, intelligent application of gaskets for meeting high air and water tightness suitable for any climatic regions.

ALUMINIUM SLIDING WINDOWS - Windows constitute the main focal points of your home's facade. This also includes integral elements like ventilation, natural light, and much more. Finding the perfect fit for your needs is important and can be hard. We offer a wide variety of sleek and stylish aluminium windows, made to suit your requirements and complement the style of your home. Our aluminium range includes bifold, casement, awning, double hung, sliding windows. Sliding windows offer an exceptional amount of versatility in regard to size and configuration. In addition to this, sliding windows offer excellent space efficiency, as well as superior ventilation. Homebuilders and renovators can avail unprecedented versatility with our products to choose the perfect combination of windows and doors.

SLIDING FOLDING - Bifold windows offer the perfect way to combine stylish and functional transition between indoor and outdoor spaces within your home. They are excellent to use as servery windows, allowing you to take advantage of the optional extended sill. The bifold design allows you to open the windows to the full width of the opening and provide an excellent option for entertaining spaces such as between the kitchen and patios, courtyards, or verandahs.

CASEMENT DOORS & WINDOWS - Crafted to suit today's varying architectural styles, our casement windows and doors blend in with any style of homes.

LIFT & SLIDE - In contrast to old fashioned sliding doors that move along a bottom track horizontally, lift and slide doors feature a different opening mechanism that improves upon the usability, security and energy-efficiency in contrast to normal doors. By rotating the handle, the entire sliding sash is effortlessly lifted off the ground and slid to the side. Because the sash is physically lifted off the ground to slide, it is also lowered back down when closed (whether partially or completely). This means the full weight of the sash presses downwards creating an airtight seal, eliminating draughts and energy loss.

06

METAL WINDOWS & DOORS

Talk about hyperdrive - Innovative Windows metal windows and doors are developed using a harmonious accord of galvanized steel, stainless steel, corten steel, and brass. With a diverse range of finishes and openings to choose from, Innovative Windows lays it all out on the table - sliding mechanism, tilt & turn mechanism, pivoting or hinged mechanism, and a mammoth selection of accessories to choose from.

VERSATILITY - A much greater flexibility in styling and sizing with multiple customizable options available.

SUSTAINABLE MATERIAL - Steel is one of the most recycled materials on the planet so you could be doing the environment some good if your steel windows are made from recycled materials.

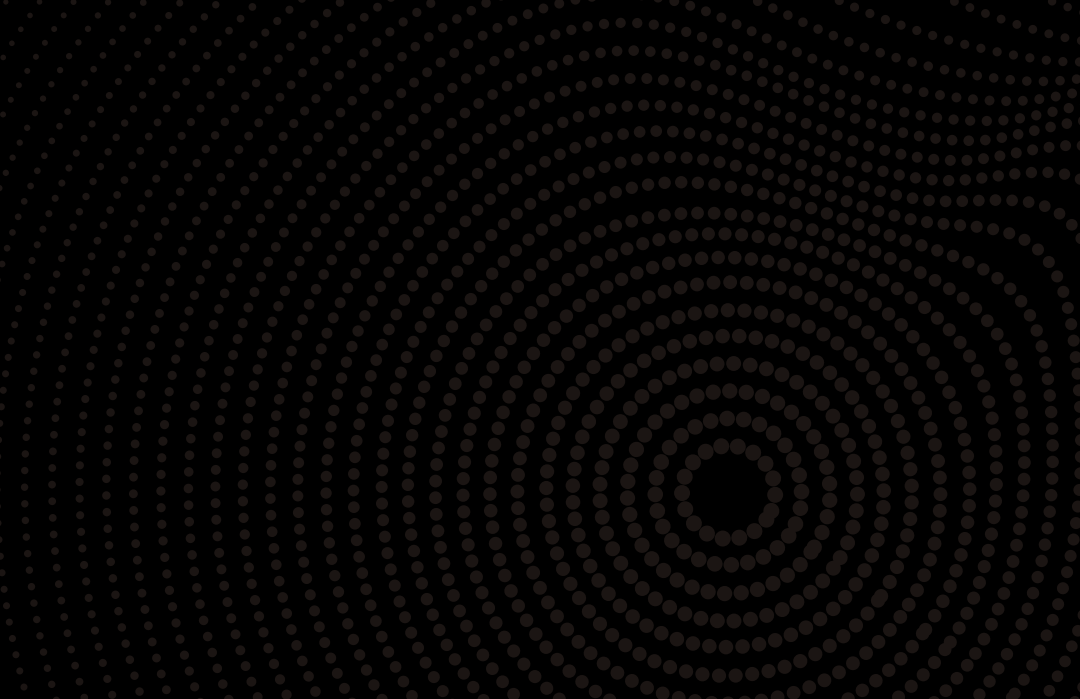

07 INNOVATIVE INTERIOR PRODUCTS

Convenience in luxury is another pillar Innovative Windows stands on. Right from intuitive door solutions to customized access systems, we prevail in providing state-of-the-art and secure solutions for all types of rooms and buildings, tailored for your individual security requirements.

The mentality of stepping in and out of rooms has evolved with the way we live, and Innovative Windows tailored interior solutions go hand-in-hand with this evolution. We build customized access systems for all types of functionalities, that cater to everyone, right from public institutions to complex facilities like hospitals, airports, schools, banks, and others.

Economically efficient, environment-friendly, top-notch security, and easy maintenance are the backbone of Innovative Windows interiors. Right from planning to implementation, our systems are easily integrated with yours and work in harmony to provide a modern blend of luxury and security.

08
